COL. WATTERSON'S LECTURE

A Full and Enthusiastic House
Heard Him Saturday Night

A BRILLIANT CHARACTERIZATION

Lincoln Never an Extremist—A Com-
mon Man Expanded to Gigantic
Proportions—The Genius of
Common Sense.

Notwithstanding the fact that the
lecture was given too far out to be con-
venient for the most of the people, a
large crowd heard Colonel Watterson
at the Normal College on Saturday
night.

He has made, as some are aware, a
study of Lincoln and is writing a life
of him which will be given to the pub-
lisher about next May. He was per-
sonally acquainted with the great war
president and with the surroundings
from which he emerged and is therefore
qualified to speak at first hand. For
an hour and a half he held the closest
attention of his audience. It was
a most brilliant characterization.

The preliminary remarks drew in
clear outline the conditions from which
the great struggle arose. The gradu-
al displacement of the old colonial
gentlemen, decorous always, by the
puissant party leader was sketched
with dramatic force. The procession
of leaders, the panorama of a unique
civilization passed across the stage at
his wizard bidding, and most promi-
nent, most pathetic the mighty figure
of the great Webster striving to block
in his old age the resistless onward
sweep of a "moral force" that would
down at no man's bidding.

Then came a description of the strug-
gle in congress, when Greek met Greek,
and the gradual alignment of men with
the one side or the other.

The speaker gave an account of the
ever-interesting struggle between Lin-
coln and Douglas and declared that
Lincoln rode a swelling and Douglas
an ebbing tide. Coming to the pictur-
ing of Lincoln, the man, there fol-
lowed one of the finest pieces of word
sculpture ever seen on the platform and
from the bare, chaotic characteristics
of the books, under his touch, there
sprang the giant figure of that period
of blood and death and it remained
mystic, dominant, insistent to the last
heartbreaking scene in the theatre.

The attempt of Seward to direct the
affairs of state and his discomfiture
were given humorously, but so skill-
fully that all the men of Lincoln cabi-
net seemed dwarfed by comparison.
He remained the undisputed master of
the situation. As the speaker put it, he
reserved to himself the control of the
great political and moral forces and
organized ideas and left only the exe-
cution of details to his subordinates.
This was Lincoln, the president.

When Mr. Watterson said that Lin-
coln's was the genius of common sense
and that he was only a common man
expanded to giant proportions he gave
the best possible summary of the man.

Lincoln's humor, his tenderness, his
broad humanity were brought out by
touches here and there, by anecdote
and incident faultlessly chosen and by
reading personal letters. In answer
to the question "Where did Lincoln
get his genius?" he asked, "Where did
Shakespeare get his genius? Where
did Mozart get his music?"

Colonel Watterson is not what is
popularly meant by the term orator.
He is a speaker of clear, trenchant
and yet picturesque English that en-
chains and enchants his audience.

Those who heard him on Saturday
night will easily understand why he is
considered the ablest editorial writer
of the country, since the death of
Charles A. Dana.

As Colonel Watterson stood on the
platform one could not help noting
his striking likeness to the fine por-
trait of Vance on his right. It seemed
as though the great commoner of the
Old North State had "stepped from
the canvas."

Colonel Watterson went from here
to Macon, Georgia, returning he
speaks in Spartanburg and then in
Charlotte on Thursday night.

A BEAUTIFUL DRIVE.

That is What Summit Avenue Will
Be Soon.

A TELEGRAM man made a hurried
visit to Summit avenue this morning
and a busy scene met his admiring
gaze. Numerous teams were engaged
hauling dirt and rock, men were busy
plying the pick and shovel, the super-
intendent and engineer, Mr. W. R.
Richardson and foremen Messrs. J. C.
Abbott and W. W. Gates busy in the
performance of their duties—everything
going like clock work and it was a
business and a busy scene.

Emerging from Church street at the
junction with Lindsay you get a splen-
did view of the broad and beautiful
avenue. Just across the grade be-
yond the Southern railroad, a large
force of men, wagons and teams were
busy digging, ploughing, shoveling
and hauling dirt to the fill a little fur-
ther on. Foreman J. C. Abbott was in
charge of this squad, and ten or a
dozen teams were employed hauling
dirt.

Driving still further we rounded that
graceful curve in the avenue and came
in full view of another squad, digging,
hauling and leveling, Foreman W. W.
Gates having charge of this squad.
And just here we may say that much
credit is due these two gentlemen,
Messrs. Abbott and Gates, for the suc-
cess of the work thus far achieved.
They take great interest in their work.

Still further on we found other men
at work placing rock on the street.
About fifteen wagons are busy hauling
rock from the quarry near by. The
quarry work is in charge of Richard
Smith. The stone is broken in the
quarry to the proper size for the first
layer which is being put down about
six inches deep. Another layer of
finer crushed rock will be placed on
top. At present about seven hundred
feet of the avenue has been covered
with this first layer of stone.

The length of the avenue from its
junction with Church and Lindsay
streets is 5,300 feet to its terminus near
the residence of Mr. Censor Cone,
twenty feet more than a mile. The
steepest grade will be only a slight
fraction over one and one half feet to
the hundred, which is so slight that it
will hardly be noticed. The avenue is
eighty feet wide, including a fourteen
foot side walk on either side of the
drive way which is fifty-two feet wide.
The first car load of curbing for the
sidewalks has arrived from Salisbury.
It is of granite and the same size as
that used on the streets in the city.

Superintendent Richardson tells us
that it will require about forty car
loads of granite curbing to complete
the work. It is estimated that about
eight thousand ton of rock will be ne-
cessary to macadamize the drive way,
and it is thought that the nearby quar-
ry will furnish plenty of rock to do
the job.

When completed Summit avenue will
be one of the most beautiful drives in the
state. It will be the wheelman's pa-
radise. And now there is talk of open-
ing a street from Summit avenue to
the race track. This will be an addi-
tional attraction and convenience.

Aside from the lovely driveway be-
ing prepared, adding another attrac-
tion to the already best town in the
state, there is another feature of this
work which is not of minor importance.
There are nearly 100 men employed on the
work and 25 or 30 teams. These men and
horses must live and eat, and it means
business for our merchants.

A Small Scrap.

About 10 o'clock this morning there
was a small fistfight at Pool's res-
taurant, on South Elm. The combat-
ants were Pres. Jones and Willis Pool,
both colored. Pool is the proprietor.
It seems that Jones claimed to have
lost some money in the place, that it
rolled through a crack in the floor and
he said Pool had found it and would
not give it up.

The quarrel lasted at intervals for
several hours, we are told, when about
10 o'clock it began to get pretty warm
and resulted in a fist fight in which
there was no blood shed and only a
swollen eye or two tells the tale of the
fray. Jones has skipped.

Three Evils of the Day.

Dr. Egbert W. Smith in his sermon
at the first Presbyterian church last
night touched upon three evils to
which he paid his respects caustically:
The low stage, the immoral novel and
the yellow journal. His remarks upon
the latter were especially timely and
pertinent. He declared that the Sun-
day editions of such papers as the
Journal and World were unfit to be
taken into the home or to be read by
members of the family.

New Postmasters.

Two new postmasters for North Car-
olina offices were appointed Saturday,
as follows: Marmaduke, Maj. Alston;
Vesta, Josie Quinn.

land.

TRIED TO WRECK A TRAIN.

Duties on Denmark Sugars--Bering
Sea Flatters Closing--Maudel-
bourne is Better.

By Wire to THE TELEGRAM

San Francisco, November 15.—The
steamship Maniposa, from Sydney and
Auckland, due here on Thursday,
brings one million and five hundred
thousand dollars in gold, consigned
to two local banks.

This makes the aggregate received
this fall from the same source, ten mil-
lion dollars. This comes largely in
payment for American grain that have
been shipped to Australia.

NOT FATALITY HURT.

By Wire to THE TELEGRAM

New York, Nov. 15.—The condition
of Richard Maudelbourne, who was
shot in the hotel Gerard Saturday
night by J. Waldere Kirk, called the
"Western dude," appeared much bet-
ter today. Both men preserve the
strictest reticence with reference to the
difficulty though it is asserted that it
was caused by a woman. Neither will
talk.

DASTARDLY TRAIN WRECKERS.

By Wire to THE TELEGRAM

Statesburg, N. Y. Nov. 15.—Two of
the most dastardly attempts at train
wrecking reported in many a day were
made on the Erie tracks near here last
night. The first attempt was made on
the west bound track. The train ran
into a pile of fish-plate and had a
narrow escape. The second attempt
was made a half an hour later when
the east bound freight ran into a half
dozen ties piled up on the track. The
engine scattered them on either side
derailing the engine and pilot.

DUTY ON SUGAR.

By Wire to THE TELEGRAM

Washington, Nov. 15.—The treasury
department has decided that Denmark
sugars must pay hereafter a counter-
vailing duty of three dollars and two
and two fifth cents per hundred
pounds.

BERING SEA MATTER UP.

Washington, D. C., Nov. 15.—When
the meeting of the Bering Sea com-
missioners began at the State Depart-
ment today the delegates said that
there was every reason to believe that
the final stage would be reached at
some time during the day. It is ex-
pected that the reports will be ready,
that they will reach a common ground
of understanding and sign the joint
report. This statement came from re-
liable sources.

"DENVER ED'S" WIFE SUICIDES.

She Leaves a Note Asking Her Son to
Grow up a Good Man.

By Cable to THE TELEGRAM

Brazil, Nov. 15.—The wife of "Den-
ver Ed" Smith, the pugilist, commit-
ted suicide in her room this morning.
She was 35 years old. No cause is
assigned for the deed. She left a note
to her son, begging him to grow up a
good man.

Shot Her Husband and Herself.

By Wire to THE TELEGRAM

Boston, Nov. 15.—Mary McLaughlin
living in South Boston, shot her hus-
band Frank McLaughlin last night to
prevent his being removed to a hospi-
tal where he was to undergo a criti-
cal operation, and then shot herself.
Both are fatally wounded.

Trial Trip of the Iowa.

By Wire to THE TELEGRAM

New York, Nov. 15.—The warship
Iowa, which is lying off Tompkinsville
L. I., this morning fired a salute of
thirteen guns in honor of the trial
board which boarded her. She is
going on her final trial trip.

Rev. Dr. T. N. Ivey will conduct the
prayer meeting service at Centenary on
Wednesday night at 7:30.

WON'T WED GEO. M. PULLMAN.

Announcement That His Engagement
to Miss Oglesby is Broken.

Chicago, Nov. 14.—Formal announce-
ment was made today of the breaking
of the engagement of George M. Pull-
man and Miss Felicie Oglesby. Mr.
Pullman and Miss Oglesby have been
engaged for more than two years.
When the news of the elder Pullman's
death was announced Miss Oglesby
was at the home of her parents, ex-Gov
and Mrs. Richard J. Oglesby, at Elk-
hart, Ill. For two weeks she had been
visiting here with Mr. and Mrs. N. H.
May, although she has been a guest
of Mrs. Pullman part of the time.

On Thursday Miss Oglesby returned
home, and the announcement that the
engagement was broken followed.
Friends of the Oglesby family deny
that the engagement was broken be-
cause Mr. Pullman was disinherited.

BOYD FOR ATTORNEY GENERAL.

Senator Pritchard and Southern Com-
mittee Will Urge His Appointment.

Washington, Nov. 13.—A concerted
movement is to be made by Southern
politicians led by Senator Pritchard,
and Southern National committeemen
to have Col. James E. Boyd, Assis-
tant Attorney General promoted to the
cabinet, should Attorney General Mc-
Kenna be appointed to the Supreme
bench. Mr. Boyd is the National
committeeman from North Carolina,
and his friends urge his competence
and fitness as unexcelled.

The National Baseball League.

Philadelphia, Nov. 14.—The annual
fall meeting of the National Baseball
League was brought to a close this
evening after a final session, which
lasted from 10:30 to 5:30 p. m. Very
little business was disposed of at the
previous sessions of the week's meet-
ing, but today conclusions were
reached on several important matters.
The double umpire system was adopted.
It was decided that a regular schedule
for umpires should be prepared, pro-
vision was made for the suppression
of rowdism on the ball field, and it
was decided to have four trips between
the sections instead of two, as hereto-
fore.

Has Spain Found a Loan?

London, Nov. 14.—The Daily Mail
says that Ernest T. Hooley, the English
promoter and financier, has made an
offer to Spain to raise for her a loan
of about \$17,500,000, the security to be
on the lines of the old quicksilver loan.
The Spanish Government will consider
the proposal on Nov. 18.—It is under-
stood that the rate of interest sug-
gested is 4 per cent.

Hayti Negotiates a Heavy Loan.

Washington, Nov. 14.—The United
States Minister to Hayti cables from
Port-au-Prince that the Haytian gov-
ernment has concluded a loan for \$4,-
000,000 through Lazard Bros., New
York, at 9 per cent., to be delivered
immediately, the paper currency to be
destroyed, the fractional silver and
copper coin to be re-coined in the mints
of the United States.

Advance in Wages.

By Wire to THE TELEGRAM

Wheeling, W. Va., Nov. 15.—The
Wheeling Iron and Steel Company
today advanced the wages of nearly
two thousand employees ten per cent.

Killed by a Fall.

A Reidsville special to the Raleigh
News and Observer, under date of 13,
says: Henry Roberts, colored, aged
about 20, fell from an electric light
pole tonight and was instantly killed.
It is supposed that the electric shock
caused the accident. His hand and
foot were burned and his skull and
neck broken.

The Hunters Are Off.

Messrs. John McKnight, John L.
King, Sam Gilmer, A. F. Brooks and
Mayor John J. Nelson, left today at
noon for their hunting grounds near
Manchester, to catch foxes. We say
"to catch foxes" because that is just
what they are going for. However,
they may not catch 'em. You can't
always do just what you want to do;
but we are guessing they'll have luck
and bring home trophies of the chase.

a fit.

VERDI PROSTRATED.

Rome, Nov. 15.—Giuseppe Verdi,
the great composer, now 83 years old,
is prostrated by the death of his wife,
which occurred yesterday.

IT IS COOL IN LONDON.

London, Nov. 15.—The temperature,
which has been high all last week, regis-
tered 60 to 70 degrees, suddenly be-
came colder last night and this morn-
ing snow was falling in many parts of
Scotland and north England. The
east coast is swept by a severe gale,
causing the shipping to seek shelter.

Canada's Friendship for America.

Washington, Nov. 14.—While the
plans of the Canadian contingent now
in Washington in connection with the
seal conference are not finally fixed it is
the present expectation that Sir Wilfrid
Laurier, the Premier, with Sir Louis
Dauris, and his personal following,
will leave Washington on their return
home Tuesday. Something of the
view taken of this Canadian mission
by our Government may be gathered
by the following utterance of a high
administration official who has had
dealings with the Canadian Premier:
"Sir Wilfrid Laurier has not only
been received by the Government with
great consideration, but has made an
excellent impression upon all of the
gentlemen with whom he has come in
contact. As a staunch Canadian
statesman, he naturally demands con-
cession. At the same time he has
shown a liberal spirit towards the
plan of increasing the commercial in-
tercourse of the two countries and if
he meets the views of the United States
half way there is a very fair chance of
removing from the present field of
view the most important questions
which have produced so much irrita-
tion between the two countries during
the preceding period of "conservative"
administration in Canada.

Rapid Firing Rate Attained.

Washington, Nov. 14.—The War
Department has just completed a most
interesting test at Sandy Hook of the
Crozier-Buffington disappearing gun
carriage. With a twelve-inch gun
mounted on this carriage ten rounds
were fired in fifteen minutes and fifty-
seven seconds, the machinery working
absolutely without a hitch. This is
the highest rate of fire ever attained
on any carriage of this kind with a
gun of this caliber and the ordinance
officers are greatly pleased with the
result, as the carriage is the invention
of two of the members of the corps.

Advertising Makes Business.

I don't care how big and rich and
widely known a concern is, let it take
its ads out of all papers for say two
seasons and it will never again be able
to catch up. Why, some dealers take
it to be a sure sign that a company is
falling back, perhaps getting ready to
make an assignment when it stops ads
and keep out for a longer time than
usual. You can send him all the cat-
alogues, circulars, letters, etc., you
please, but unless he can find your ad
in his paper he don't count you as
being in the front rank. No business
man can afford to let his ads drop out
of the papers that reach his customers.

Bank Directors Arrested.

London, Nov. 14.—Col. F. R. Howel
and Thomas Cory, directors of the
National Bank of New South Wales,
now in liquidation, were arrested last
evening and charged at Bow street
police court this afternoon with em-
bezzling £30,000 of the funds of the
bank. They were remanded in bail to
the amount of £3,000 each.

Attending a Thanksgiving Dinner,

vided with a dress suit of the latest cut and

fabric no one will look more "swell" than a
man who wears one of our dress suits. Clean-

Facts Worth Studying.

If the Southern Stock-Mutual pays
no larger dividends than the 20 per
cent. now paid, and the business in-
creases during the next seven years in
the same ratio it has increased during
the last three years, the actual saving
for the ten years to policy-holders in
North and South Carolina will be
\$194,822.00, and to the policy-holders
in Greensboro alone, \$26,237.00. Be-
sides this the Company's assets (reinsur-
ance reserve and surplus) repre-
sented by still larger figures will be
kept at home and invested in the state.
What better investment can the public
make than by upholding an institu-
tion like this?

A New New England.

The trolley roads, says Alvan F. Sanborn in The Atlantic, are rapidly covering Massachusetts, Rhode Island and Connecticut with a network that is slowly and surely redistributing the population. It seems almost inevitable that a great part of the present rural area of these three states will ultimately be included in the suburbs of their numerous and widely scattered industrial centers and of their dozen or more larger cities. When this condition arrives, if it does arrive, rural life will have become suburban, and farming, aside from market gardening, will have practically disappeared. The bicycle and good roads are exerting a minor but considerable influence in the same direction.

Equally important is the fact that large areas in all sections of New England are in process of transformation from farms to sites of country seats. Residents of the cities are coming more and more to make their real homes in the country. They are building their country houses with more comfort and more solidity, and are living in them a much larger part of the year than formerly. The country season extends already from the 1st of May to the 1st of November and is still lengthening. Improved railway and steamboat transportation, the multiplication of large fortunes, greater leisure, above all a growing appreciation of the sports and resources of country life, have contributed to this result. It looks very much as if our urban society were attaching itself primarily to the land—leaving the land and leaving it for the city only in the festive season. Whether this tendency will produce again a landed aristocracy instead of an aristocracy of other forms of wealth who can say? One thing only is sure—it would produce thereby a new New England.

Bronzing.

The following method is recommended for bronzing objects of copper, for example, medals: Dissolve 2 parts of verdigris (acetate of copper) and 1 part of sal ammoniac in vinegar. Boil the solution, skim it and dilute with water until it no longer possesses a feebly metallic smell nor produces a whitish precipitate on the addition of water. Then let it boil again in an earthenware or porcelain vessel and transfer it while boiling into another vessel containing the perfectly clean medals, etc., and place the whole on the fire. As soon as the medals assume the required color remove them and wash carefully in clean water. The objects must not be left too long in the acid bath over the fire, because the layer of oxide would become too thick and would easily scale off the surface, whereas, if the operation is properly conducted, the coating adheres so firmly that it cannot be separated even by scraping.

Of course, it is only after a certain number of trials and with experience that the exact moment can be ascertained for removing the objects from the bath. It is very necessary that the bath be not too concentrated, as the superficial oxide becomes proportionately less adherent. Moreover, a whitish powder is deposited on the medal, which turns green on exposure to the air and spoils the appearance of the bronzing.—Jewelers' Circular.

How He Made a Saving.

"That mine in Toolumbe county is costing me a mint of money," said a local capitalist to one of his employees. "I wish you would figure around and see if you can't make a saving somewhere. If you can, I'll raise your salary \$50 a month."

"But suppose I can't make a saving of \$50 a month?" inquired the young man.

"Well, I've tried to figure it out myself, and I can't find where I can save a cent. If you can, you are worth \$50 a month more."

"All right, sir. I'll look into it." The young man went over all the accounts, but he could not find where he could cut down a single expense. Finally it occurred to him that he was drawing \$25 a month for acting as secretary of the mining company.

"I've found a place where you can save \$25 a month," he informed his employer the next day. "I've cut off that salary of \$25 a month we've been paying the secretary for doing nothing."

He got his raise.—San Francisco Post.

Pretty Names For Books.

The following are some of the curious titles of old English books:

"A Most Delectable Sweet Perfumed Nougat For God's Saints to Smell At."

"Biscuit Baked In the Oven of Charity, Carefully Conserved For the Chickens of the Church, the Sparrows of the Spirit and the Sweet Swallows of Salvation."

"A Sigh of Sorrow For the Sinners of Zion Breathed Out of a Hole In the Wall of an Earthly Vessel Known Among Men by the Name of Samuel Fish" (a Quaker who had been imprisoned).

"Eggs of Charity Layed For the Chickens of the Covenant and Bofled With the Water of Divine Love. Take Ye Out and Eat."

"The Spiritual Mustard Pot to Make the Soul Sneeze with Devotion."

Most of these were published in the time of Cromwell.—St. Nicholas.

Artificial Ears.

The making of artificial ears seems to have reached scientific perfection within the last decade. Made of a specially prepared rubber, flesh colored in the rough, they are painted by hand in exact imitation of the remaining ear of the unfortunate customer and as carefully "touched" and marked over as an artist's picture.

Well Qualified.

"What makes you think Smoothly is an experienced fisherman?"

"Because he is one of the most natural and artistic liars I have ever had the pleasure of meeting."—Detroit Free Press.

OMAHA'S QUEER EPIDEMIC.

More Than 10,000 Persons Afflicted With a Strange Skin Disease.

Omaha, Neb., Nov. 14.—All the physicians in the city are puzzled as to the nature of an epidemic throughout this city.

The disease develops in small eruptions which cover the entire body. The eruptions are highly inflamed and finally scale off, like scurvy.

The disease was first noticed about three weeks ago and since then has spread with great rapidity. More than ten thousand persons have been effected.

Every barber shop in the city is provided with a salve which is designed to allay the inflammation.

The city health department has received numerous reports, which indicate that the disease is prevalent in the public schools. It is the general opinion of physicians that the disease is caused by some germ that settles on the skin, and this is about all that they can say about it. It is not regarded as serious.

Judge Dick and His Stick.

Referring to Judge Dick, the silver service presented to him by the United States commissioners and the law regulating such matters, the Salisbury World says: "This may be sufficient cause to lift the official hide from any one else but it is no go with Judge Dick. He has been too long in the game. Prospective successors have laid numerous traps for the old gentleman, but he has bridged them all. Any one else might fall under the weight of the legal enactment, but as for Judge Dick—he'll be there when next heard from. You can't push him off the bench." No, sir. We venture to predict that this law about presents will be found not to apply to him, or if it does it will never be invoked against him.

And speaking of his honor's staying qualities, we can't help thinking about how he trifled with the affections of the lawyers on that occasion when they presented him with a gold-headed cane, made fearful speeches and almost bade him farewell. He made as good a speech back at them as any of them had made at him and has gone right on holding court ever since. His idea evidently was that if he was as good a judge as they said he was, he could not be spared from the bench, and this present by the United States commissioners will encourage him to hold on some more. But we do think he ought to give back the stick that was given him to "support his steps in his declining years," for the only declining he does is declining to resign.—Charlotte Observer.

The Kronbergs Coming.

The people of Greensboro certainly have a treat in store for them on tomorrow night. The Kronberg concert company have been secured by the ladies of the Presbyterian church and comes well recommended.

NO WOMAN SUFFRAGE FOR THE!

Lasell Seminary Girls Vote Down the Suggestion by 81 to 42.

Auburndale, Mass., Nov. 14.—The students of Lasell Seminary have come out strong against woman suffrage. A meeting was held at the seminary on Thursday and every girl was requested to vote on the question. There were 123 votes cast, and of these 81 were against and 42 in favor of woman suffrage. The meeting was lively, the leaders of both factions making strong pleas for their sides. When the result of the voting was declared the anti-suffragists made merry at the expense of the other side.

What It Means.

When we advertise that we will guarantee Dr. King's New Discovery, Electric Bitters, Bucklen's Arnica Salve, or Dr. King's New Life Pills, it means that we are authorized by the proprietors to sell these remedies on a positive guarantee, that if purchaser is not satisfied with results, we will refund the purchase price. These medicines have been sold on this guarantee for many years and there should be no more conclusive evidence of their great merit. Ask about them and give them a trial. Sold at C. E. Are You Subject to Attacks of

COLIC?

If So, There is No Need to Suffer.

Mrs. Joe Person's Remedy

WILL CURE YOU

For several years I had been subject to severe attacks of cramp colic. Sometimes they would last me an hour and hardly a week passed that I did not have several attacks. I tried everything that was suggested, but found no relief. During these attacks the muscles of the arm and leg were terribly drawn and the whole body was cramped. I was advised to try Mrs. Joe Person's Remedy, which gave me relief at once, but not until I had taken two dozen bottles was I entirely cured. It was eight years ago since I took the remedy, and I have not had a touch of the trouble since.

"WITH THY MIGHT."

Dr. Carraway Preaches a Practical Sermon Last Night.

The sermon preached by Rev. Dr. Carraway at Centenary church last night was from the text: "Whatsoever thy hand findeth to do, do it with thy might," and was listened to with close attention by a good congregation. Dr. Carraway is an able preacher and his sermon last night was full of practical common sense and in tones that had the right ring, he gave his opinion of the idler, the man who goes to town puts his children in the factory and idles his time away whittling goods boxes, while the little ones earn a living for him.

He also alluded to the professional tramp—the fellow who begs his breakfast, dinner or supper at your door—who is not hunting work; a job of work is the last thing he wants to find. Dr. Carraway's manner of handling this subject showed that notwithstanding the fact that he is getting well along in years he is an up-to-date preacher. He took the position that every man can find something to do and it is his duty to do it, if not at one price then take what you can get. Above all be employed and work with all thy might, but it is not right to go beyond what you are able to stand and break yourself down prematurely.

Dr. Carraway then turned to the spiritual or religious side of the matter and with equal ability made plain our duty from that standpoint, and emphasized the manner in which the work is required to be performed—"with thy might." A man who goes to work "with his might" will not fail to receive help.

A PERSONAL APPEAL

To the Subscribers to the Y. M. C. A. Fund.

TO THE SUBSCRIBERS OF THE Y. M. C. A.:

The Young Men's Christian Association of Greensboro, having carried a heavy debt for several years, greatly impairing its usefulness and rendering its support unusually and increasingly burdensome, the board of directors, after careful consideration, have decided to close the rooms, and sell the furniture, books and apparatus, collect subscriptions due and pay all outstanding indebtedness. They believe this wiser than would be an attempt to continue the work with the old burden of debt. Most of the property has been sold at a fair valuation, and if all who made subscriptions for the support of the work will come forward and pay, the directors will be able to pay the debts of the association without great loss to themselves.

The association was kept open by the directors last year, ending October 31st, on the strength of their faith in these subscriptions and they now urge prompt payment so that all business connected with the association may be closed up as early as possible. All directors are authorized to make collections.

Respectfully,
P. P. CLAXTON, Pres.
For the Board of Directors.

C. M. Vanstory & Co.,

The Home of Fashion.

Men of fashion find our stock replete with noblest importations. Clothes are the outward expression of your taste. "Costly thy habit as thy purse can buy, but not expressed in fancy; rich—not gaudy, for the apparel oft proclaims the man." The truth is always the strongest argument. Pleasing our patrons makes life pleasant for us.

A Good Combination:

WEAR The looks of clothing may be a temporary avallment, but if good service be not with them, they'll never please you.

FIT A poor fitting garment, no matter how the material, should not be worn by an up-to-date dresser.

STYLE A suit needs this to catch the eye and aid you in appearance.

PRICE Uniting the foregoing elements in clothing to sell at prices to suit the times is just exactly what we are doing.

A Taste of Winter.

Soon you will need something heavier in the furnishing line. Remember that while summer was here we were looking after your wants. All you have to do is to come see how well we have provided for you. With us you will find everything up-to-date. Not yesterday, but today, tomorrow. Liberality and fair dealing, good merchandise and moderate prices, have been the corner-stone of our success.
